ORGANIC AMENDMENT 100% NATURAL

Improves physical, chemical and biological soil's structure

More fertile soils

Easy to use

Zero pathogen,
Zero weed seed

Produced in Mali

FERTINOVA® 1-1-1

ORGANIC AMENDMENT

ALL CROPS

FERTINOVA®

1-1-1

ORGANIC AMENDMENT

TARGETED CROPS

FERTINOVA® 1-1-1 is a 100% natural amendment. It improves the nutritional and water exchanges between the plant and the soil thanks to improving the soil structure (i.e. its physical, biological and chemical properties).

ADVANTAGES

- Promotes a stable lumpy soil structure
- Increases water retention
- Promotes storage and availability of nutrients
- Contributes to the improvement of the biological activity of the soil
- 100% natural from recovery by composting waste agriculture, agro-industry and livestock

BENEFITS

Efficiency
More fertile soil

Simplicity
Manual spreading

Quality
Fine grain size

Natural
100% issu de déchets agricoles

COMPOSITION

Dry matter > 70%
Organic matter > 24%
C/N: 8 to 15
Humidity 30% minimum
%N-P-K: 1-1-1
Trace elements (Fe, B, Zn, Mo): Traces
Free of pathogens and weed seeds.

PERIOD OF USE

J F M A M J J A S O N D

CROPS	DOSE (T/HA)	COMMENT
All crops	1T/Ha	The contribution is recommended before sowing, but remains possible during the crop cycle (in this case favor a contribution on rows, transplanting, sowing, and covering)
