FOLIAR BIOSTIMULANT LAMINARIA CONCENTRATE

Boosts the vitality of your crops

Anti-stress

**Stimulates
photosynthesis**

**Strengthens
plant tissues**

VITALITY® FOLIAR BIOSTIMULANT

ALL CROPS

VITALITY®

FOLIAR BIOSTIMULANT

TARGET CROPS

VITALITY® is a vitality booster based on a concentrate of *Laminaria* rich in active ingredients. It strengthens plant tissue, maintains cell homeostasis, stimulates vitality and acts as an anti-stress barrier. As a result, harvests are secured, whatever the stresses during cultivation.

ADVANTAGES

- *Laminaria* is a type of brown seaweed. The extraction method enables us to preserve and obtain a high content of active elements, which play an important role in plant physiology and growth.
- Silica is an essential element in plant nutrition. It helps combat abiotic stress, in particular by strengthening plant tissues.
- Salicylic acid, an organic element, is involved in cell growth, in the acquired systemic defence of plants and is a genuine vitality stimulator.
- Glucans are polysaccharides, a component of cellulose, which improve the rigidity of plant cells.

*For details and precautions for use, refer to the label.

BENEFITS

Efficiency

Increased yield and quality of crops

Innovation

100% active ingredients preserved

Simple

Stable liquid formulation

Natural

UOF

APPLICATION

Foliar application throughout the crop cycle with a minimum of 0.8L/ha/pass and 2.4L/ha/crop.

Wear gloves and a mask when handling the product. Keep out of reach of children.

COMPOSITION

Seaweed complex - *Laminaria* concentrate
 5% Sulphur dioxide (SO₃)
 0.5% Potassium oxide (K₂O) / 2.5% Silica (SiO₃)
 0.3% Molybdenum / 0.76 Amino acids / pH: 6-7
 Density: 1 +/- 0.05

PACKAGING

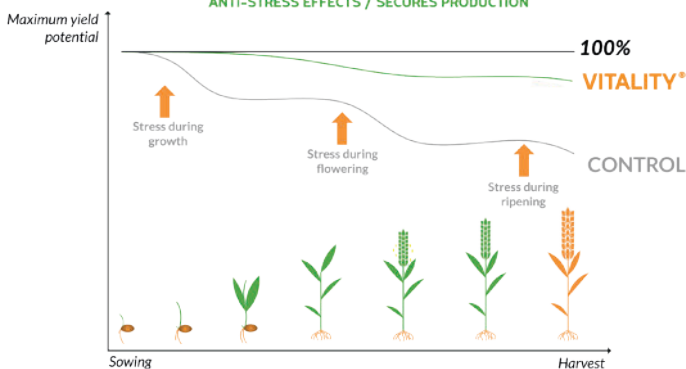

Canisters: 5L, 10L, 22L
 Formulation: **CS (Concentrate Suspension)**
