A WELL-KNOWN NATURAL SOLUTION
WITH PROVEN EFFECTIVENESS

Broad spectrum

Innovative formulation

No PHI & No MRL

Ideal for organic agriculture

RAPAX®

BIOINSECTICIDE

MAIZE

RAPAX®

BIOINSECTICIDE

REGISTERED CROPS

RAPAX® is a biosinsecticide composed of a unique *Bacillus thuringiensis kurstaki* strain EG 2348.

RAPAX® acts by ingestion and is highly effective on the early larval stages of Lepidoptera. Its specific formulation improves spraying, adhesion and plant coverage, making it extremely effective.

RAPAX® is a sustainable, selective product with no impact on bees and auxiliary insects.

ADVANTAGES

- Broad spectrum of activity: highly effective against numerous Lepidopteran species
- Can be applied up to harvest time
- Compatible with most off the products
- No phytotoxicity
- Safe for users, beneficials and the environment
- Approved for use in organic agriculture
- Excellent tool for integrated crop management programs
- No maximum residue limits (MRL), benefit for export crops
- Reduce risk of insect resistance

*For details and usage precautions, refer to the label
Wear gloves and a mask to handle the product. Do not leave it within reach of children.

BENEFITS

Flexible
Broad spectrum

Performance
As effective as pesticide

Simple
Convenient formulation

Natural
Microorganism-based

CROPS	PESTS	APPLICATION RATE /SPRAY	REMARKS
